

K-Love on FM 90.7 is the only Christian radio station that transmits progressive/rock christian music in our listening area. This music is positive and encouraging which is important to our community, especially our youth. In this day and age with such negative lyrics and advertising it would be shame to have K-Love displaced by a LPFM.

K-Love is the only radio station I listen to and it gives me peace of mind to know my children are listening to lyrics with a healthy message. K-Love serves hundreds of thousands of listeners that will not be able to hear this type of music and programing on another radio station if it is displaced by a LPFM. Please keep K-Love on the air to continue to send a positive and encouraging message to its listening communities.
